

Join the  
**Lehigh Valley Green Builders Forum**

in our efforts to Clean up Mercury Pollution

As we fight to limit mercury from coal fired power plants, landfill emissions are unregulated and are many times the emissions of coal power plants

**Recycle all fluorescent light bulbs!**

Go to [www.earth911.org](http://www.earth911.org) to learn where to recycle your bulbs

Join us in encouraging a State wide effort to educate about the dangers of Mercury Pollution

Join us in calling for a State wide bulb recycling program. A recycling fee for all fluorescent bulbs sold could be used to fund a bulb recycling program. We could use the existing local recycling centers as drop off centers and require retailers to take back the bulbs.

**Recycling costs 22 cents per bulb in bulk!**

Semi Annual Electronics and Fluorescent Bulb Collection

Memorial Pool Parking Lot, Illick's Mill Road, Bethlehem PA  
Nominal fees apply. [www.bethlehem-pa.gov/recycle/](http://www.bethlehem-pa.gov/recycle/)
